

- * Using domino styles you can make your memorial show as long as you want it.
- * Many embellishment files and overlays included .
- * Tutorial on the easy 'drag and drop ' way to exchange files
- * Tutorials on how to change colors, exchange files, disable or remove layers, and how to work with the embellishment files
- * How to let time fly , or slow it down (I prefer that one !) on the clock
and more.

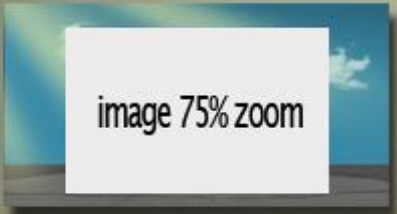

* # 1 Stands for this background image. A style starting with # 1 starts with this background, and a style ending with # 1 ends with this background.

* #2 Stands for this background image. A style starting with #2 starts with this background, and a style ending with #2 ends with this background.

* #3 Stands for this background image. A style starting with #3 starts with this background, and a style ending with #3 ends with this background.

* #4 Stands for this background image. A style starting with #4 starts with this background, and a style ending with #4 ends with this background.

* #5 Stands for this background image. A style starting with #5 starts with this background, and a style ending with #5 ends with this background.
